ICON LEGEND

The GreenPlanet Nutrients Icon legend aims to help you find the right nutrients for your garden.

Fertilizer Type	Nutrient Type	Growth Stage
 Liquid	 Base	 Vegetative
 Dry	 Additive	 Flowering
	 Maintenance	

For Use In			
 Hydro	 Coco	 Soil / Soiless	 CLF Program

HOW DOES IT WORK?

GP3 is designed for the veteran growers' needs in mind combined with a simple to use formula for the novice grower.

GP3 GROW helps develop leafy green foliage and a strong root system that will be able to support flowering sites during the bloom stage. Nutrients provided are nitrogen (N) and soluble potash (K2O), which plants require in large amounts to thrive.
NPK 2 - 1 - 6

GP3 Bloom is a targeted formulation to guarantee heavier and dense flowers. These nutrients include high amounts of phosphorous (P) and potassium (K), which plants require to thrive while flowering.
NPK 0 - 5 - 4

GP3 Micro provides your plants with the optimal array of micronutrients they need during the vegetative and flowering stages of plant growth.
NPK 5 - 0 - 1

RECOMMENDED FEED PROGRAM ADDITIVES

Liquid Weight is a supplement blend of simple and complex carbohydrates that support the plant and beneficial microbial life in the root zone. This leads to an increase in the absorption of essential nutrients that help develop impressive aromatic flowers and fruits.

Massive Bloom Formulation is our premier flowering additive formulated with all of the necessary microelements required to achieve an increase in flower size as well as providing several additional beneficial properties.
NPK 1 - 2 - 3

Rezin is our flowering additive formulated to enhance the natural processes within flowering plants that produce flavour and aroma. This results in high-quality flowers come time for harvest.

Vitathrive Propagation Solution is our comprehensive additive blend of vitamins and minerals formulated for the vegetative stage of plant growth. It is designed to reinforce plant health and support essential functions.
NPK 0 - 0 - 1

Quality Focused. Results Based.
