Tips & Advice on Selling GPN Feed Programs

Formulated for the veteran grower

With the 3 Part AutoPot GP3 Feed Program, AutoPot growers now have a clean, simple, and high-quality source of nutrients for their plants. Encompassing pure ingredients, better ratios, and a more complete formula, this feed program gives AutoPot growers better results and better value.

feed program

Feed Program Benefits:

Contains No Dyes or Synthetic Colours

Unlike our competitors, the AutoPot GP3 feed program contains only what your plants need to thrive.

Increased Flexibility and Control

Allows more control over the levels of nutrients your plants receive than a traditional 2-part system.

Low Salt Index

The GP3 AutoPot program is a super clean product: each formula goes through a rigorous filtration process during production to leave absolutely no sediment or residue in your reservoir once mixed.

Extremely Water Soluble

The AutoPot 3-Part feeding program is designed to be extremely water-soluble. This characteristic of the AutoPot 3-Part feed programs leads to a cleaner reservoir, fewer clogged lines, and an AutoPot system that requires less maintenance overall.
